

# Better Ways to Help Protect and Use Mangroves

## Why are Mangroves Important?

- ❖ Mangroves protect the seashore from the sea and help to prevent the sea from flooding our homes.
- ❖ Mangroves provide food and homes for animals which are then used by the community.
- ❖ Mangroves provide income for beekeepers, fisherfolk and other coastal people.

*To report mangrove destruction in your community or for further information on how you can help to conserve our mangroves call 220-2841 ext 231 or 663-2654*

*Email: [macsecretariat@gmail.com](mailto:macsecretariat@gmail.com)*

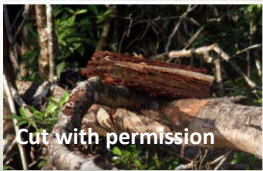

## We can protect our Mangroves if we:

Avoid burning of mangroves

Use one area to park boats

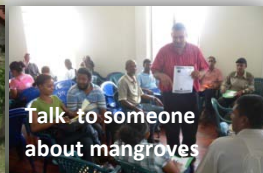

Cut with permission

Use one area to park

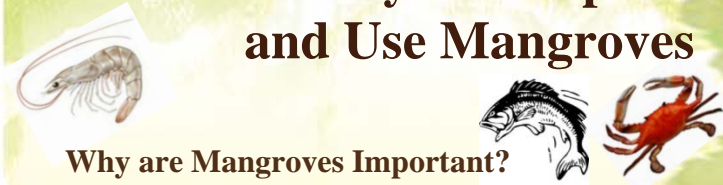

Graze animals in identified community pasture lands

Talk to someone about mangroves
